Email: _____

Please read the following before signing:

1. Application for electrical service shall be made in person, or by electronic mail, at the town hall by the owner of the property to be benefitted, by the owner's authorized agent or by a tenant thereof holding a valid lease from the owner, designating the location of the property and stating the purpose for which the electricity will be required. Applications for new electric service requiring the Town to install electric facilities shall provide the Town with drawings and plans showing the location of the owners proposed location and where the electric service will be delivered and must conform to the Line Extension requirements set forth in Code 50.66.
2. There will be a \$250 deposit for new utility customers, or a letter of credit from their previous electric company showing at least a year's worth of good standing; within the last year, prior to the date the new electric customer requests service. The deposit is refundable after three years if the account has been kept current.
3. General Service customers who rent or lease existing premises shall make a deposit equal to 6 weeks' worth of usage prior to the date the service is requested. If a portion or all of a deposit is used to pay delinquent charges, the user, upon request, shall be required to add further deposit equal to the amount so used. If, after three years, it has not been necessary to use any part of a deposit, and the customer has paid its bills within the due date posted on the monthly bill, the town may return the deposit.
4. Responsibility for electrical service to the property served continues until the notice of discontinuance is received and until the date of departure specified therein, if any. The user shall be required to close their account whenever they cease to consume electricity at that location. The Town will endeavor to get a final reading and process the final bill within a reasonable time frame after notice to discontinue service has been received by the Town. The customer's financial obligation is not final until the meter reading and billing has been paid in full by the customer.
5. Bills are mailed on the 1st of the following month of the reading. The bill is due by the 20th of the same month. If not paid by the 20th, you will receive a Red Tag (and charged \$25) on the following business day giving you 5 days to pay your bill. Late charges are calculated at 1.5% on any unpaid balances.
6. In the event of a discontinuance of service by the Town for any of the reasons set forth in the subsection of the Ordinance, there shall be a \$25 reconnect fee.
7. Returned checks shall be charged a fee of \$20 either at the time the check is made good or by adding the fee to the utility bill for succeeding months until paid.
8. A request for a special meter reading requires a \$30 charge. If the meter reading is incorrect, the money is refundable. If the reading is correct, the fee will be retained by the Town. Meters must be easily accessible to be read.
9. Any applicant for utilities does hereby grant the Town of Fredonia and its agents to inspect both the interior and exterior of the facility to be connected.
